DLF

QUICKDRAW

Quickdraw turf type annual ryegrass is a quick germinating variety, perfect for winter overseeding or any use where high quality, rapid turf cover is required.

Featuring a finer leaf texture, darker green colour, and improved turf quality over older varieties of turf type annual ryegrasses.

While designed for use in overseeding golf courses and for sports fields, it is also well adapted for landscaping.

Use	High traffic conditions Golf courses Parks & reserves Sod turf growers
Sowing Rate	20-40(g/m²)
Benefits	Cost effective for use as a straight variety or in a blend Darker green colour Finer leaf texture Increased vigour

All ratings are based on USA trial data.

Ratings

Leaf texture	●●●●●●●○○
Overseed colour	●●●●●●●○○
Overseed quality	●●●●●●●○○
Cold establishment	●●●●●●○○○
Transition	●●●●●●○○○

Quickdraw is excellent for sports turf repairs, especially in late autumn or winter due to its ability to germinate in low soil temperatures.

- Excellent for winter overseeding of dormant Bermuda Grass in both sports turf and landscape applications
- Transitions without chemistry, saving additional expenses
- Quicker and more uniform transition, making it easily managed
- Superior nursegrass in blends with tall and fine fescues as well as Kentucky bluegrasses that may take longer to establish.

Mowing heights

Recommended heights are 13 to 75 mm. This allows you lots of options on golf course fairways and roughs, and as a sports turf. This also makes Quickdraw well suited for home lawns, parks, and for use around businesses and industrial lawns.
